

Julius Bär

REIMAGINING THE DIGITAL CLIENT EXPERIENCE FOR WEALTH MANAGEMENT

Swiss Hacks 2026

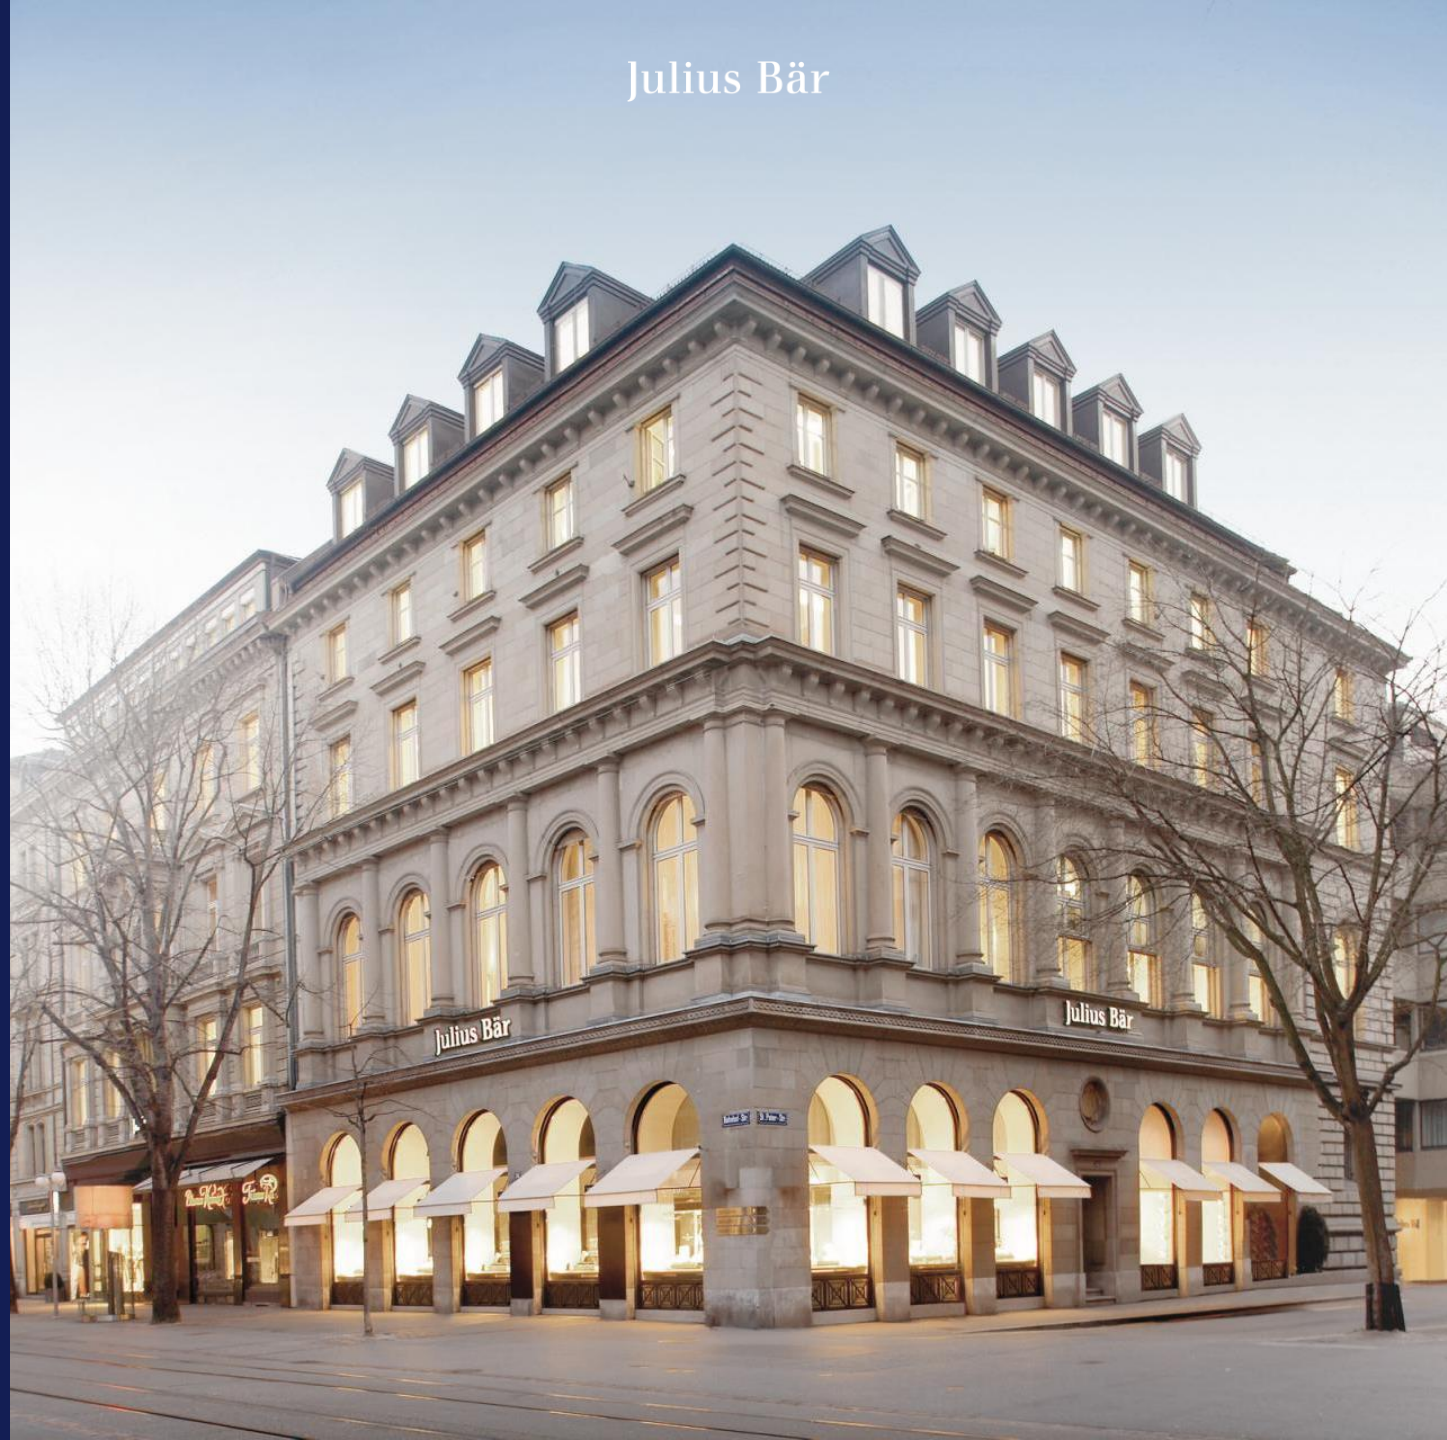

Who we are

Julius Baer is the **leading Swiss wealth management group**.

Our holistic and tailored offerings take into account the needs of each valued client along their life cycle.

Our aim is to create **long-term partnerships** powered by high-end services, expertise, an open architecture, and access to a network of like-minded people.

Julius Bär

Why clients work with us

Solid foundations

- A solid history in Swiss banking dating back to 1890
- From family heritage to a transparent, listed company
- Strong balance sheet and capitalisation
- A long history of profitability

Personal connections

- A personal relationship manager located in close proximity to their clients and supported by a team of specialists
- Advice tailored to the aspirations of our clients
- Long-lasting client relationships across generations
- Accessible and approachable management

International network

- Local proximity complemented by international centres of expertise
- Present in around 25 countries and 60 locations
- Seven booking centres worldwide
- Partnerships with external experts for complementary services

Pure wealth management

- Exclusive strategic focus on wealth management
- Holistic offering: wealth planning, investing, and financing
- Comprehensive investment solutions built on our expertise
- Proprietary research with a global perspective

2025 results (in CHF)

521 billion

Assets under management

107 billion

Total assets

7.2 billion

Total equity

764 million

Net profit

deposit rating

WEALTH MANAGEMENT

VS

RETAIL BANKING

High-net-worth and ultra-HNW individuals,
family offices, external asset managers

Target Clients

Mass market, individuals, SMEs

Bespoke investing, global asset planning

Core Services

Accounts, loans, credit cards, payments

Wealth growth, preservation, and multi-generational trust

Primary Goal

Everyday financial access and convenience

High-touch, relationship-driven, digital assisted

Engagement Style

Digital-first, high volume

Reimagining the Digital Client Experience for Wealth Management

CHALLENGE

Design and prototype **AI-powered solutions** that improve any stage of the digital client journey - from onboarding and daily interactions to advisory and long-term wealth planning. Articulate the **client value proposition** and **challenge today's industry norms**. **No restrictions on the technology stack.*

3 BUILDING BLOCKS

Enhanced Mobile and Online Experiences

Create new high-value features for sophisticated clients (secure login, portfolio overviews, push authentications, trading) on par with best-in-class retail apps

Smart Tools for Wealth Insights

Transform complex portfolio and financial data into clear, actionable insights

Omnichannel Interactions

Omnichannel interactions (app and web two-way communication) guided by relationships managers

JUDGING CRITERIA

- ✓ Client-Centric Innovation
- ✓ User Experience and Design
- ✓ Technical and Operational Feasibility
- ✓ Strategic Impact

Remember: How you present the prototype will impact your scoring

A woman with dark hair tied back, wearing a white shirt, is looking at her smartphone. She is standing in front of a city skyline at night. The skyline includes several tall buildings with lights on, and a large Ferris wheel with red and white lights is visible on the right. The text "Join Julius Baer's Challenge!" is overlaid on the right side of the image.
